TESTIMONY:

"I had never heard of Mad Dog Math before enrolling my daughter in this course. Now that I know about it, I have been sharing it with all of my homeschool friends! Only now do I really understand the importance of automaticity in math. My daughter has finally mastered her math facts and as a result, I've seen her become not only far more confident with math, but actually PROUD of her work! She's literally gone from hating and dreading math to loving it and being excited about it and wanting to do more... a homeschool mama's dream! Thank you MDM!!!"

-Testimony by a 4th grade Mad Dog Math mom
